SIREN 10"

NIGHT **MODE**

maximum security and freedom
when sleeping or staying
inside the camper

This mode ensures a perfect balance between comfort and security: the alarm system remains vigilant against external threats while occupants can enjoy freedom of movement and the peace needed for a restful sleep.

INTERNAL VOLUMETRIC PROTECTION -> OFF
People can move freely inside the cabin without triggering the alarm.

PERIMETER PROTECTION -> ON
Ensures constant control of perimeter sensors installed on doors, windows and/or hatches. Any attempt to open from the outside is immediately detected and triggers the alarm.
